

## Safety Upgrade For The Front Circle

I am writing to inform you about the implementation of a safety measure recommended in a recent school safety audit conducted by the Avon Police Department. It is recommended that we close off the front circle of the driveway **during school hours**.

Beginning Tuesday, May 4 access to the front circle will be limited during school hours. Once bus arrival and parent drop off are completed each morning, the circular portion of the driveway in front of the main entrance will be closed to vehicles. The area will remain closed until dismissal time.

Parents/guardians who are dropping off or picking up students during the school day should use the side parking lots. The drop off location used during morning arrival and afternoon dismissal is recommended.

Thank you for your cooperation.
