Assistant Principal

June 11, 2020

Hello AMS Friends and Families,

I write to you this evening with a bit of disappointment.

As many of you may know, our students are working on a digital yearbook assignment in their ELA classes. The spirit of the assignment was to provide students with a creative activity that can help them bring closure to a unique school year.

Unfortunately, the digital settings allow for unlimited duplication and distribution of the yearbook by anyone, which means there is a possibility that student information can be shared without a student or parent's consent.

As of this evening, students no longer have access to their digital yearbook assignments. In addition to our correspondence to you, we will send out an email to students tomorrow explaining our decision.

I am sure you are as disappointed as we are. Still, it is important that we protect student information, especially as they continue to grow their own digital footprints.

Thank you in advance for your understanding and support. We know these past months have been hard on us all, and we want to make sure we end this year in the most positive way possible. We still have other opportunities to celebrate our students.

If you have any questions, please feel free to contact me.

Sincerely,

Mr. Kimball
